EXECUTIVE SUMMARY

Full Stack and AI developer with experience building scalable web applications using React, Node.js, Python, and PostgreSQL. Passionate about developing intelligent systems and solving real-world problems through modern software technologies.

EXPERIENCE

BuddhiAi.IO — *Full Stack and Ai Developer*

OCT2025 - PRESENT

Built and deployed scalable full-stack and AI-powered applications, achieving significant performance improvements through optimized backend architectures, efficient API design, intelligent data processing, and model integration. Leveraged technologies such as React, Node.js, Python, and modern AI frameworks to deliver high-performance, user-centric solutions, demonstrating strong problem-solving ability and technical excellence across the entire development lifecycle.

Freelancing — *Web Development*

JULY 2025 - PRESENT

As a freelance **Full Stack Developer**, I delivered multiple client applications using **React Native**, achieving sub-second navigation performance and maintaining high application stability through optimized state management and efficient architecture. I collaborated closely with clients to translate their requirements into intuitive, visually appealing, and user-friendly solutions. I consistently explored and adopted emerging technologies to enhance application.

SKILLS

Programming Skills:
Javascript, Typescript, Python

Frontend Development:
React, React Native, Next.js, Vue.js, HTML5, CSS3, Responsive Design, UI/UX Design

Backend Development:
Node.js, Express.js, RESTful API Development

Databases & Data Management:
MongoDB,PostgreSQL, Database Design, Query Optimization

Desktop Applications:
PyQt5, Python Desktop Development

Tools & Frameworks:
Git, GitHub, Performance Optimization, Architecture Design,
Open Source Contribution,Vercel and Render Deploymen

PROVELOCE — *Co-Founder and Full Stack Engineer*

OCT 2025 – PRESENT

As the **Co-Founder and Chief Operating Officer at ProVeloce**, an IT solutions and software development company, I lead the delivery of scalable, high-quality digital products for startups and enterprises. With hands-on expertise in full-stack development, system architecture, and product execution, I oversee end-to-end project operations—from requirement analysis and technical planning to development, deployment, and optimization. ProVeloce specializes in building modern web and mobile applications, AI-driven solutions, and cloud-based architectures, including scalable and serverless systems. In addition to operational leadership, I collaborate closely with clients to transform their ideas into reliable, user-centric, and visually compelling digital solutions while ensuring technical excellence, timely delivery, and sustainable growth.

EDUCATION

SIMATS School of Engineering, Chennai — *B.Tech Information Technology*

JULY2024 – 2028 | CGPA – 8.83 / 10

I started my academic journey in August 2024, pursuing a Bachelor of Technology in Information Technology. I expect to graduate in 2028. This interdisciplinary program allows me to explore the exciting intersection of technology and life sciences, a field that truly inspires me.

Jawahar Vidyalaya Seniour Secondary School— *SSLC*

JUN 2021 – MAR 2022

Completed **Secondary School Leaving Certificate (SSLC – 10th Standard)**, building a strong academic foundation in Mathematics, Science, Computer Studies, and analytical subjects essential for higher secondary and engineering education.

Velammal Vidyalaya Alapakkam-HSC

MAR 2022–APR–2024

Completed **Higher Secondary Certificate (HSC – 11th & 12th Standard)** in the **Computer Science (CSE) stream**, with core subjects including **Physics, Chemistry, Mathematics, and Computer Science**, establishing a strong academic foundation for engineering studies.

PROJECTS

Ai Powered Fake News Detector

Developed an **AI-powered Fake News Detection system** using NLP and machine learning techniques to analyze news content and identify misinformation with high accuracy. Built an end-to-end pipeline covering data preprocessing, feature extraction, model training, and real-time prediction, integrated into a scalable web application. Optimized the system for performance and usability, enabling fast, reliable classification through a clean and user-friendly interface.

ACHIEVEMENTS

1st Place – ThinkFinity '25, Sri Sairam Engineering College

1st Place – QuestInnovate, SRM Vadapalani

1st Place – AI with Digital Marketing Hackathon, won an **Internship at Plant Green Inertia**

2nd Place – InnoThon '25, KCG College of Technology

LANGUAGES

Tamil – Native

English – Proficiency

Hindi – Read, Write and Understand
